

Randy Milbrath is a Certified Industrial Hygienist (CIH) and Senior Industrial Hygienist with Terracon Consultants, Inc. (Terracon). He is responsible for providing technical consultation on industrial hygiene, indoor air quality (IAQ), safety and environmental issues to various clients. Mr. Milbrath is a senior member of a team of professionals that address diverse air-related issues and is responsible for quality assurance reviews of technical reports in the areas of asbestos, industrial hygiene, safety and environmental compliance. Prior to joining Terracon, he served as Vice President of HSE Consulting and Sampling, Inc., an industrial hygiene, safety and environmental consulting firm. He was an occupational safety specialist and senior industrial hygienist for a major manufacturer of Lexan[®] plastic and a supervisor for an industrial hygiene group with the Naval Medical Command that served U.S. Navy shore facilities in the Los Angeles area. With over 30 years of experience in the areas of health, safety and environmental, he has been involved in many air sampling projects for a diverse client base
